Surprise!

Just discovered that Dr. Dossey, our guest in our new podcast, is actually a speaker this weekend at the event below.

MYSTICS & SCIENTISTS EXTRA 2020
ONE MIND, ONE PLANET, ONE HEALTH

DR LARRY DOSSEY

Healing, Spirituality, and Consciousness: Emerging Insights

Using actual clinical examples of healing, Dr. Dossey will examine the implications of this emerging view of consciousness for human welfare and for Planet Earth. He will show that we are arriving at a view of consciousness that transcends death and annihilation; that portends a majestic view of what it means to be human; and how to be healed. Particular attention will be paid to spontaneous healing phenomena, and to the implications of the corona virus pandemic for global unity and connectedness.

NEW PODCAST EPISODE!

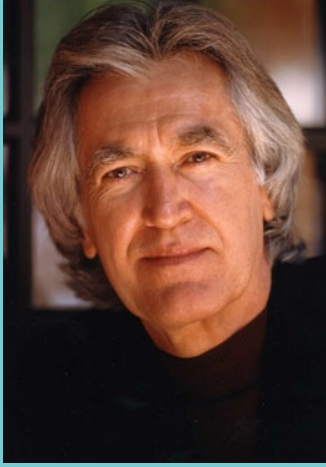

Recorded prior to the coronavirus threat, yet relevant to one way we might be dealing with it.

LARRY DOSSEY, M.D.

Podcast Episode 11

Physician and *New York Times* Best-Selling Author

Dr. Larry Dossey is one of the most interesting and most valuable people on the planet. He's a highly

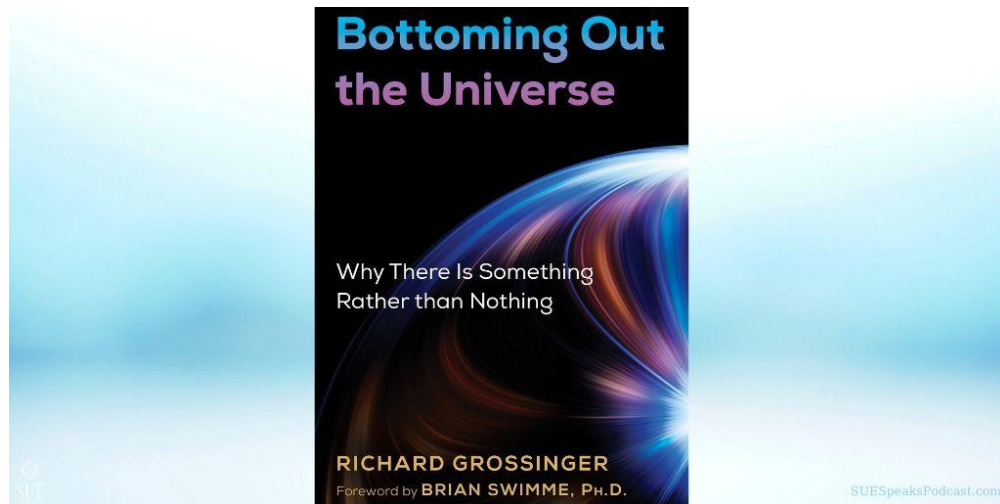

respected physician, where being an authority in medicine gives credence to what he talks about where oneness and consciousness trump the materialistic, self-serving worldview we now entertain. Larry was very gracious in flying into L.A. to give a moving talk at an event I was producing for TED a few years ago. And, his interview by Oprah, that we talk about in the podcast episode, was revelatory in authenticating the power of prayer to heal people. Plus, credentials aside, he's an absolutely lovely human being!
