*Happy
New Year*

As we enter 2020, here's a little video I made to reflect on the past year and look forward to this next one. May the indignity of our mishandling by an incompetent leader turn out to be what galvanizes us to do better at shifting the fundamentals to where mutual concern takes its place alongside our self-interest and we make great strides in turning our home into the more beautiful world our hearts know is possible.
